SKILLSET

My key skills include Angular 5+, NodeJS, Firebase, basic MSSQL Server, AWS S3 & EC2, Git, Scss, Angular Material, Wordpress. I would like to work with web based applications, design principles such as Mobile First Design Guidelines.

My aim is to design and develop easy to use and highly convenient websites/apps using widely used technologies such as Angular, Scss, Express JS, NodeJS. With frameworks such as Bootstrap, Angular Material and Google Material Design.

I'm comfortable with working remotely and multi-tasking. I'm also keen on to learn newer technologies for the sake of work requirements and my own growth and development.

My other skill set includes graphic designing using softwares such as Photoshop, Illustrator, Adobe Animate. I'm proficient with basic softwares like MS Word, MS Excel, PowerPoint.

- Artworks & Painting
- Games
- Football
